Dear hiring committee,

I am a student at Kapi'olani Community College studying Interface Design with the New Media Arts program. I would like to express my interest in applying for an internship at \_\_\_\_\_. I am particularly fond of your company for its values in diversity, sustainability, and respectfulness. It is the ability to thoughtfully design and create honest collaborative relationships that attracts me most to your company.

After I earned my bachelor's degree in Communication from UH Manoa, I worked as a Student Support Specialist where I performed a wide range of duties and gained experience working in a professional team environment, until I chose to return to school to study design which is where my true passion lies. As a design student, I enjoy learning as much as I can about design and acquiring skills in different areas, such as typography, graphic design, motion graphics, UI/UX design, and the basics of front-end web development. I believe that these skills, along with my professional experience, would hopefully make me a positive addition to your team.

I am a reliable, motivated designer and I enjoy working on collaborative projects in team environments. I enjoy brainstorming with others and coordinating efforts to achieve a common goal. I am proud to share that one of my strongest assets that I have developed throughout my career has been my ability to build strong professional relationships.

Please see my resume for more details about my work history and please be sure to view my online portfolio at [cassandrakeri.design](http://cassandrakeri.design) for my recent design projects. I would greatly appreciate the opportunity to discuss my qualifications regarding a potential internship at \_\_\_\_\_. I look forward to hearing back from you soon.

Thank you for your time and consideration.

Sincerely,  
Cassandra Neri
